## PROFESSIONAL SUMMARY

Computer Engineering student focused on frontend and web development with a strong interest in UI/UX. Hands-on experience building and integrating full-stack academic systems, supported by practical skills in PC assembly, hardware troubleshooting, and basic networking. Uses AI-assisted development for ideation, architecture planning, implementation support, testing, debugging, and iteration while continuously strengthening programming fundamentals. Seeking an OJT/internship in frontend, web/software development, or IT support.

## TECHNICAL SKILLS

**Frontend:** HTML, CSS, JavaScript, React, Vite, Tailwind CSS, shadcn/ui, Framer Motion

**Backend & Data:** Node.js, Express.js, PostgreSQL, Supabase, REST APIs, JWT

**Integration & Media:** Google Gemini 2.5 Flash, Gmail API, OAuth 2.0, FFmpeg, FFprobe

**IT & Hardware:** PC Assembly, Hardware Troubleshooting, Component Replacement, Windows Installation, Driver Installation, BIOS Configuration, Printer/Peripheral Troubleshooting

**Networking:** Cisco Packet Tracer, Router/Switch Configuration, IP Addressing, Subnetting, DHCP, NAT, ACL, Cable Crimping

**Embedded & Tools:** Arduino, Raspberry Pi, Sensors, Breadboarding, Soldering, KiCad, PCB Design, Git, GitHub, VS Code

**Creative:** Lightroom, CapCut, Canva

## PROJECTS

**SEA-IT-SOLVED - Automated Lecture Capturing & Documentation System** | Academic Thesis / Capstone, 2026 - Present

- Developing and integrating a full-stack system that transforms captured mathematics lectures into structured digital learning materials and assessments.
- Hands-on responsibility for PostgreSQL/Supabase integration, Gmail verification, Gemini API integration, FFmpeg media processing, deployment, system testing, and integration.
- **Designed, integrated, tested, and debugged workflows across the React frontend, Express backend, database, authentication, REST APIs, and role-based access.**
- Software platform is functional; physical classroom hardware integration remains in development with teammates contributing to hardware testing and thesis documentation.

**TOP GARAGE - Automotive Upholstery Website** | In Development

- Developing a website for a real automotive seat-cover and upholstery business with a product/gallery showcase, seat-cover designs, vehicle selection, Messenger/contact, appointment booking, and planned admin dashboard.

**Personal Developer Portfolio** | 2026

- **Built and deployed an interactive React portfolio with responsive layouts, custom animations, theme controls, music player, local portfolio chatbot, Stack mini-game, profile flip-card, and a Firebase contact form with Turnstile bot protection.**

## EXPERIENCE & ACTIVITIES

**School Media Arts Graphic Designer - Computer Engineering Organization** | 2022 - Present

- Creates promotional graphics and visual content for Computer Engineering organization activities using creative design tools.

**SEA Valorant Champion - Main Player** | School of Engineering and Architecture, 2025

- Competed as a main player on the championship team, applying communication, teamwork, adaptability, and performance under pressure.

## CERTIFICATIONS

**CCNA: Switching, Routing, and Wireless Essentials** - Cisco Networking Academy | June 17, 2025

**IT Essentials: PC Hardware and Software** - Cisco Networking Academy | April 11, 2024

## EDUCATION

**Bachelor of Science in Computer Engineering** | 2022 - Present

Holy Angel University, Pampanga, Philippines

**Senior High School - STEM Strand** | Graduated 2023

Holy Angel University, Pampanga, Philippines | Grade 11 - With Honors

**Junior High School**

Mawaque High School, Mabalacat, Pampanga | Grades 9-10 - With Honors
